Multiple PhD positions with full financial support are now available for fall 2016 and spring 2017 in Dr. Mo Sha's group, the Department of Computer Science, Binghamton University, previously known as State University of New York (SUNY) at Binghamton, USA.

Successful applicants will enroll as RA with monthly stipend. Applications from self-supporting students or scholars are also welcome. Possible research directions include wireless networks, wireless sensor networks, cyber-physical systems, embedded systems, as well as their applications to smart energy, wireless health, internet of things, and industrial process automation. For more information about possible research projects, please visit [http://www.cs.binghamton.edu/~msha/](http://www.cs.binghamton.edu/~msha/).

Binghamton University is currently ranked 88th among the 201 national universities in U.S. News & World Report’s 2015 America's Best Colleges and Universities ranking. The Carnegie Foundation for the Advancement of Teaching has classified the school as a Research University with high research activity. Binghamton University is also known as a Public Ivy. For more information, please refer to the following link:

Binghamton is close to big cities (such as New York, Philadelphia, Boston, and Washington D.C.), which have a lot of potential job opportunities.

Applicants should have a Bachelor or Master (preferred) degree (or expect to receive the degree before enrollment at BU) in Computer Science, Electrical Engineering, Applied Mathematics or related disciplines. Applicants with strong hands-on experiences in wireless networks/operating systems/embedded systems are particularly welcome to apply.

To apply, please email resume in PDF (including the scores of *all* undergraduate/graduate level courses, class/department rank, English test scores (GRE/TOEFL), relevant research experience and publications) to Dr. Mo Sha (msha@binghamton.edu) with subject "PhD applicant 2016".

All inquiries about the positions should be made to Dr. Mo Sha (msha@binghamton.edu).
